

DTx receives prestigious Award from Siemens Medical Solutions USA

07 December 2007 Melbourne, Florida – DTx, Inc.

DTx is pleased to announce the receipt of the Siemens Medical Solutions Certified Supplier Award in recognition of DTx's commitment to the Siemens Supplier Certification & Dock to Stock program. ***"It is because of DTx's excellent quality, delivery and customer service that you were able to reach this status;"*** stated Steven Komarnicki, Siemens Operations Quality Assurance Manager, in the award letter.

DTx has a long-standing relationship with Siemens, and has been working with the Molecular Imaging division (formerly CTI) since 1994. Under the control of the EN ISO 13485:2003 and ISO 9001:2000, DTx has worked to strengthen this relationship and align the DTx Quality System with Siemens needs and requirements. ***"It is DTx goal to provide our customers with the finest quality customer service and support;"*** said Michael Sobolewski, Executive Vice President of Sales & Marketing. ***"Receiving this coveted award not only validates that the team work of all DTx employees has been successful, but it also challenges us to meet even higher standards of customer service."***

"This award does not reflect the finish line;" said Chuck Underwood, Supplier Quality Engineer with Siemens who presented DTx with the award ***"but the starting line for a growing partnership between Siemens and DTx in the areas of Quality, Engineering, and Innovation."***

About DTx

DTx, Inc. is based in Melbourne, Florida and specializes in providing embedded computing solutions for medical device manufacturers. Unlike mass-produced technology like cell phones or personal computers, medical device makers must adhere to strict regulatory requirements. DTx's unique Planned Technology Control™ Program resists the rapid changes in commercial technology that can jeopardize regulatory certifications by constantly tracking even the smallest components. DTx delivers stable, managed computing solutions whose life cycles far exceed commercial marketplace offerings. Services include custom product design and development, conformance engineering, manufacturing, supply chain management, product warranty and life cycle management.

About Siemens Medical Solutions

Siemens Medical Solutions is one of the world's largest suppliers to the healthcare industry. The company is a renowned medical solutions provider with core competence and innovative strength in diagnostic and therapeutic technologies as well as in knowledge engineering, including information technology and system integration. With its laboratory diagnostics acquisitions, Siemens Medical Solutions will be the first fully integrated diagnostics company, bringing together imaging and lab diagnostics, therapy, and healthcare information technology solutions, supplemented by consulting and support services. The company delivers solutions across the entire continuum of care – from prevention and early detection, to diagnosis, therapy and care. Siemens Medical Solutions employs more than 48,000 people worldwide and operates in 130 countries. In the fiscal year 2007 (Sept. 30), Siemens Medical Solutions reported sales of €9.85 billion, orders of €10.27 billion, and group profit of €1.32 billion (preliminary figures, unaudited).
